VOTE NEARLY IN.

Ail But Four Indiana Countles INDIANAPOLIS, Ind., Nov. 12.-Return

from eighty-eight out of ninety-two unties received to date have not me terially changed the estimate of the emocratic plurality in Indiana heret fore given. Based upon the vote of 1885, the democrats in the eighty-eight counties have made gains of 11,487 votes. The republicans have gained 1,366 votes. This leaves the net democratic gain in the eighty-eight counties 10,071 over the In that year the republicans carried the state by a plurality of 2.348. The net democratic gain in this election is therefore sufficient to wipe out the plurality of four years ago an give a democratic plurality of 7,723.

This computation does not include r turns from the four counties of Marion Warren, Fountain and Crawford. The estimates on the four lacking countie thing up to Friday afternoon. The re-publicans claim the state by 1,000 or Marion, 1,000 democratic; Crawford, 200 democratic; Warren, 800 republican and Fountain, 75 republican. The dem elved by Secretary of State Poorman, eratic preponderance in these four cour counties. They show a peculiar state ic plurality in Indiana of 8,048. It is not believed the official count will vary much from these figures.
